

eChlorinOx Sanitizing and Cleaning Solutions

Greener Chemistry Associates LLC

eChlorinOx is the new brand name for the sanitizing and cleaning products made by electrolyzing salt water solutions in a suitable electrolysis cell, such as the Geneon TRIO from Greener Chemistry Associates LLC.

eChlorinOx provides the same sanitizing and disinfecting power as liquid chlorine bleach but **is not toxic, corrosive or allergenic.**

eChlorinOx is recognized as an effective sanitizing solution for killing harmful bacteria on hard surfaces, such as counter tops, faucets, door knobs, keypads, telephones, bathroom fixtures and floors.
